### **DETAILED ACTION**

1. Claim 21 is allowed.

#### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance: The prior art of record discloses direct anonymous attestation scheme that allows an issuer to issue a certificate to a trusted platform module (TPM) to prove remotely to a verification module that it is genuine without identifying the TPM. However the prior art of record does not explicitly disclose a security module generating a user attestation-signature value for use with verification computer by using attestation value received from the attester computer with a corresponding attribute value, wherein at least one of the attribute values are unknown to the attester computer in light of other features disclosed in claim 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
